The value of creativity
Creativity isn’t just for the arts; it’s the ability to anticipate the unknown, generate new ideas and use resources in unique ways. It’s a way of thinking that leads to innovative strategies and fresh concepts. This month at NEXT Women we are focused on using our creativity to program 2023 for you. We aim to inspire you to be creative in every aspect of your work and life. — Abby Auerbach, Chief Communications Officer & Executive Director, NEXT Women, TVB

“Ask NEXT Women!”

Each month we feature a question from you, the NEXT Women community. You can submit your questions anonymously, here.

Dear NEXT Women,

I feel boxed in at times by my mindset at work. Some of my colleagues come up with really interesting new approaches and campaign ideas, but I’m struggling to think of anything out of the box. Any suggestions?

— AE in Newark

Dear AE,

Try brainstorming by writing down any and all concepts that come to you; this automatic process can lead to new discoveries. And, do research – read about other innovations and creative campaigns to help you learn to think outside of the box more. Finally, brainstorm with your teammates in group ideation sessions – this often results in new perspectives.
